NEC

NEW High Quality Image with 640×480 Pixel

High Resolution Infrared Thermal Imager H2640

640×480 UFPA detector

Resolution 0.03°C

Frame time:30 frames/sec

Auto focusing

Visible camera

Thermal/visual fusion

Real-time memory

Data transfer via IEEE1394

Voice recording

Environmental protection

Captures more details. Makes greater potential.

Ultimate standard of image with more user-friendly operation!

Features

High performance

● 640×480 pixel high quality image

Various measuring functions

Multiple emissivity correction in real-time

■ Resolution: 0.03°C

Multi-focus function

External trigger recording

Visual/thermal image fusion function

- Visible camera built-in
- Overlaid display of thermal and visual images

- Easy to see even at outdoor

Moving image recordable

- Internal high-speed memory stores up to 832 images
- Data transfer via IEEE1392

Battery life: Approx. 2 hours

IP54 environmental protection

• 200g less than previous TH9260

Excellent auxiliary functions

- Automatic focusing
- Built-in LED light & laser pointer
- Voice & text annotations

Makes outwork easier Multi-language menu

 English, French, Portugal, Spanish, Germany, Chinese(traditional), Chinese(simplified), Korean, Russian, Italian, Japanese

Wide 5.6-inch LCD

- Less power consumption with a LED backlight
- Image can be rotated 180°

Specifications					
Measuring range	-40 to 500°C				
	Range 1: -20 to 60°C				
	Range 2: -40 to 120°C				
	Range 3: 0 to 500°C				
	Range 4: 200 to 2000℃ (optional: display 0 to 2000℃)				
Resolution	0.06°C or better (at 30°C, 30Hz) 0.03°C or better (at 30°C, Σ64)				
Accuracy	$\pm 2^{\circ}$ or $\pm 2^{\circ}$ of reading, whichever is greater				
	Uncooled focal plane array (microbolometer)				
Detector					
Spectral Range	8 to 13μm				
.F.O.V.	0.6mrad				
ocusing Range	30cm to infinity				
ield of View	21.7° (H) × 16.4° (V)				
Frame Time	30 frames/sec				
Display	View finder & 5.6-inch movable color LCD				
Thermal Image Pixels	640 (H) × 480 (V) pixels				
A/D resolution	14bits				
Measuring functions	Run/Freeze				
S/N improvement	Σ2, Σ8, Σ16, Σ32, Σ64				
Alarm	Screen display and alarm sound (ON/OFF)				
nterval measurement	Recording on built in real time memory: 1/30 to 3600 sec interval				
	Recording on memory card: 5 to 3600 sec interval (thermal image				
	30 to 3600 sec (thermal & visual images)				
	Trigger function provided				
missivity correction	Provided (0.10 to 1.00). Emissivity table provided.				
nv. temp. correction	Provided (including interval NUC)				
Jser setup	Pre-registration of environmental setup (up to 10 setups)				
Background Compensation	Provided				
Distance correction	Provided				
auto functions	Full automatic (level, sense, focus), Level trace, Auto-gain control				
hermal/visual image fusion	Provided				
isible light camera	1.31 Mega pixels, focusing distance: 30cm to infinity				
isplay functions	Display color: color/monochrome, positive/negative				
	Gradation: 16, 32, 64, 128, 256				
	Color palette: rainbow, brightness, shine, hot-iron,medical, fine				
	Isothermal band display: max. 4 bands, movable				
	Thumbnail display: 12 thermal images replay				
	Image rotation: 180° rotation				
	Multi-sense display, Battery life indicator				
	Waveform display: X-Y line waveform at Freeze mode				
	Multilingual menu				
mage processing functions	Variable level/sense				
	Multi-point temperature display (up to 10 points)				
	Multi-point emissivity correction (up to 10 points)				
	Temperature difference between 2 points (Δt)				
	Max/Min (peak hold) temperature display				
	Alarm (full screen or specified box)				
	Digital zoom: 2, 4, 8 times (Run/Freeze)				
	BOX setting, up to 5 boxes (max, min, average)				
	Sharpness filter, Median filter, Average filter				
/ulti-focus*	On/Off, temp threshold (1 to 100°C, 1°C step),				
iuiu-iucus					
	Images to capture (16 or 32), direction of edge				
	detection (horizontal, vertical, horizontal&vertical)				
nnotation	Text and voice annotation (30 sec per image)				
torage device	Compact flash memory card for:				
	Thermal image in SIX or BMP file format				
	Visual image in SIX or JPEG file format				
Novie recording	Real-time memory: up to 832 images (max 30Hz)				
ideo signal output	NTSC/PAL, composite video signal, S-video				
	IEEE1394a, RS-232C, USB1.1/2.0 (Mass-storage)				
nterfaces					
	Compact flash mermory card slot				
perating temperature	-15 to 50℃, 90% RH or less (not condensed)				
Storage temperature	-40 to 70°C, 90% RH or less (not condensed)				
Power supply	AC adaptor: DC 7.2V (nominal)				
Power consumption	Approx. 9W (Typ)				
Shock & vibration	Shock: 294m/sec² (30G) (IEC60068-2-27)				
	Vibration: 29.4m/sec ² (3G) (IEC60068-2-6)				
nuive anno antal anota etia :-					
nvironmental protection	IP54 (IEC60529)				
mention & weight	Approx. 110 (W) ×110 (H) × 210 (D) mm (excluding projections)				
imention & weight					
imention a weight	Approx. 1.5kg (without battery, LCD)				

Approx. 1.7kg (with battery, LCD) *Image with multi-focus may not be obtained if there is little temperature difference.

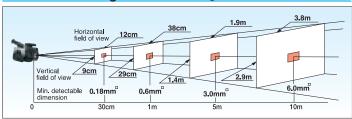

Standard accessories: AC adapter, battery pack(2pcs), battery charger, compact flash memory card & adapter, USB cable, target illuminator, carrying case, grip belt, neck strap, lens cap, viewer software, operation manual

Options							
Model	Product Name	Description					
TH71-334, 359,	AC adapter	Safety standard: PSE, UL, CE, CSA (334: 110V PSE,					
360		359: 220-240V CE, 360: 110V UL)					
TH91-464	Battery pack	Lithium ion battery					
TH71-339, 340	Battery charger	With 2 battery slots (339: 200-240V, 340: 100-110V)					
TH92-490	High temperatuer range	200 to 2000°C					
TH92-482	10°telephoto lens (2x)	10.9°×8.2° with visual camera, focusing range: 2m to infinity					
TH92-483	42° wide-angle lens $(0.5x)$	45.2°×33.7° with visual camera, focusing range: 0.3m to infinity					
TH92-486	100μm close-up lens	Min. detectable size: $100\times100\mu$ m, scan range: 64×48 mm,					
		working distance: 195mm (Add-on type)					
TH92-485	25μm close-up lens	Min. detectable size: 25×25μm, scan range: 16×12mm,					
		working distance: 11mm (Add-on type)					
TH92-488	Lens adapter	For attaching TH9100 close-up lenses to H2640					
		(Applicable lenses: TH91-385/386)					
TH92-491	2nd year product warranty	Except temperature calibration					

Softwar	e				
Model	Product Name	Description			
NS9100	Data capture software with trigger function	Requires Windows XP(Professional) Service Pack 2(or newer),			
		Windows 2000(Professional) Service Pack 4(or newer) or			
		Windows Vista Ultimate. Microsoft Excel and Word are also			
		required for operation of some functions *1 *2			
TH91-157	External trigger box	For NS9100. Trigger input & output up to 4 points each.			
NS9200	Report generator software	Requires Windows XP(Professional) Service Pack 2 (or newer)			
		or Windows 2000 (Professional) Service Pack 4 (or newer).			
		Microsoft Excel and Word (2000, 2002 or 2003) are			
		also required for operation of some functions *3			
NS9300	Image Processor Pro II software	Requires Windows XP(Home Edition/Professional) Service			
		Pack 2 (or newer) , Windows 2000 (Professional) Service			
		Pack 4 (or newer) or Windows Vista Ultimate. Microsoft Excel			
		and Word are also required for operation of some functions $^{\star 4 \star 5}$			
TH92-717	IEEE1394 data capture software with cable	For real-time image data transfer via IEEE1394, with 4m cable			

^{*1} Microsoft Excel (2000, 2003 or 2007) required for data conversion (CSV format) & report generation. Microsoft Word (2000, 2003 or 2007) required for report generation. *2 Data capture function requires IEEE1394.
*3 Data-capture-on-Excel function requires IEEE1394. *4 Microsoft Excel (2000, 2003 or 2007) required for data (CSV format) & report generation. *5 Data captuture function requires IEEE1394.

Field of View Diagram (Thermal image)

CAUTION FOR SAFETY

Please read "WARNING" & "CAUTION" in the operation manual attached to the product carefully for proper operation before using the product.
